Together with you, we create the greenest and most personalised gifts

Perfect for occasions such as

Business gifts

- Strengthen your connection with clients or partners by surprising them with a personalized green gift that makes an impact.

Events & trade shows

- Offer attendees or visitors a green gift that leaves a lasting impression and reinforces your brand identity.

Themed & seasonal gifts

- Help your clients respond to special moments like Nurses Day, Blue Monday, or Administrative Professionals' Day.

Year-end gifts

- Give your employees or clients the chance to wrap up the year with a festive and personalized green gift.

Anniversaries

- Celebrate milestones with a unique green gift that shows appreciation for long-term collaboration.

Appreciation gifts

- Enable managers to surprise their team with a green gift that expresses gratitude and support.

We make it easy with our B2B shop

Why a B2B shop for you as a reseller?

- To make it easier for you to offer green, personalized gifts to your clients – and to order them seamlessly.

Who is the B2B shop login for?

- The login is intended for close reselling partners who regularly resell our products to businesses and return frequently.

What will you find in the B2B shop?

- For each product: available colors, packaging options and customization features – all shown with your purchase price and in 4 different languages.

(Access may be revoked in case of prolonged inactivity or misuse of the shop.)

Transport costs, delivery time and instructions

Prices in the shop are excluding transport costs

- Transport costs are always calculated separately and depend on the product, quantity, packaging and delivery location.

Delivery times

- Production time is stated per product. In case of doubt, feel free to contact us.

Distribution & care instructions

- Flowers, plants and bulbs are living products and therefore have limited shelf life. Each product includes specific distribution and care instructions. If you have questions or doubts, please contact us.

Preparing orders for parcel shipping

We can also pack bulk orders individually, ready for parcel shipment

- Not all products are suitable for this (e.g. due to fragility); therefore this is always subject to consultation.
- Our products require careful packaging, and we use appropriate packaging materials.
- Additional items can be added to packages upon request.

Three options are available:

1. We deliver ready-to-ship parcels on a pallet; you only need to attach shipping labels.
2. You provide the shipping labels and we schedule a pickup together.
3. We process a provided address list, print shipping labels and arrange shipment.

Prices depend on requirements and are therefore quoted upon request.
